

inLeague Pro - Added Features on an Annual Basis

inLeague Pro is an annual, per-player, per-calendar-year (not per season) subscription add-on service that enables access to the following additional features:

- **Mobile App & Web App:** [Team Conversations](#)
- **Mobile App & Web App:** [Team Events](#)
- **(New in 2019) Mobile App:** Referee scheduling (leagues without inLeague Pro may still use mobile devices for referee scheduling via the regular web interface, but the optimized mobile app version will not be available)

The subscription fee of \$1/player/year for these services goes directly to additional development into inLeague Mobile.

inLeague Pro is automatically enabled for all regions and added to your annual hosting invoice in January. If you do not wish to renew your inLeague Pro subscription, simply do not pay that line item and the service will be canceled and not added to future invoices.
